GAS COOKING UNITS

900 SERIE

GENERAL FEATURES

- High Performing Efficient Cooking Line With Powerfull Burners
- Removable Burner Hubs
- Removable Trays With Rounded Edges
- Unscractable Grids
- Produce With Custom Alloy Resistances, 316 Ss Tanks, Hard-Chromium Cover
- Stainless steel body
- Quick easy cleaning
- Gas valf with safety relief
- Adjustable legs
- High efficiency burner
- Insulated oven

VAPOR GRILL

VAPOR GRILL

700 SERIE

GENERAL FEATURES

- Thanks to water reservoir under cast cooking surface, vapor ization is provided during cooking process and dehydration of food being cooked is prevented.
- Special design griddles on cooking surface can be removed easily. This feature provides convenience for cleaning and maintenance.
- The water reservoir that can be interfered from front face has drawers and it can be removed easily.
- Residuary oil flows through cooking grill and it goes to the water reservoir. So inflammation of oil is prevented.
- This version has two separate firing zones.
- Water drawer
- Isolation that minimizes heating of periphery metal sheet and heat abduction.
- Mouldings that are designed specially and that breaks fires.
- Heavy duty iron castings
